# The Rock Round Up!!!

Today was an exceptional day in the Rock! We visited the Genesis class and shined shoes to raise funds for our class mission project, which is to help sick children by giving a real live goat to a poor family in Africa. Protein deficiency is a dire problem in Africa causing serious medical problems, all of which can be solved or avoided by goat milk.

I am glad to report we raised \$130, enough to give a real live goat to a poor family with a little left over! After we celebrated our accomplishments with a party!

We concluded class by discussing a party Jesus talked about in Mathew 22, the parable of the wedding banquet. How the King was really God and how all of us are invited to his banquet.

Yours in Christ,  
David Palady
